

Technical cross-section drawing of a parapet wall and foundation. The drawing shows a parapet wall with a height of 70 cm and a top width of 1.60 m. The wall is supported by a foundation consisting of a 30 cm compacted ballast layer, a 30 cm simple concrete (C16/20) layer, and a 30 cm reinforced concrete (C30/37) layer. The natural ground line is indicated. The foundation width is 1.00 m. The drawing also shows the existing structure (Podeș existent) and the new structure (parapet semigreu tip H2). Dimensions for the foundation and wall are given in cm and m.
